

Consensus Forecast and Water Resource Comparison

Estimated Sustainable Water Resources

190,500 acre feet

Truckee River System
Groundwater Basins

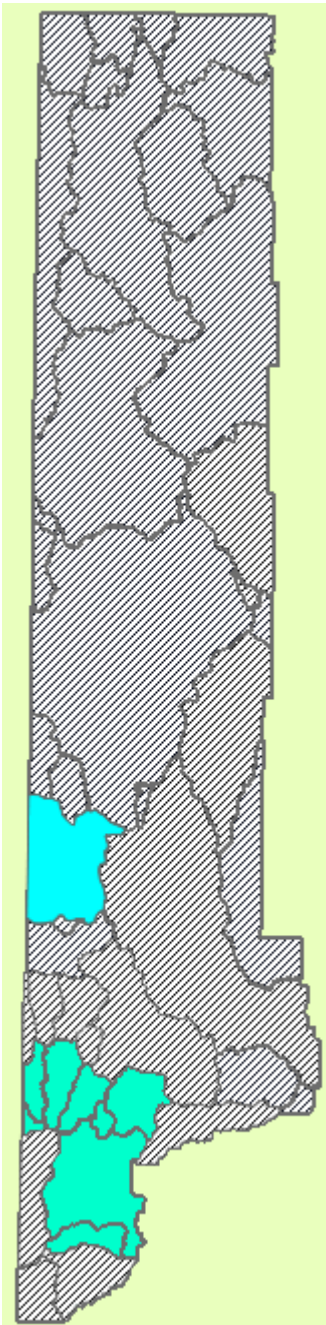

Estimated Sustainable Water Resources

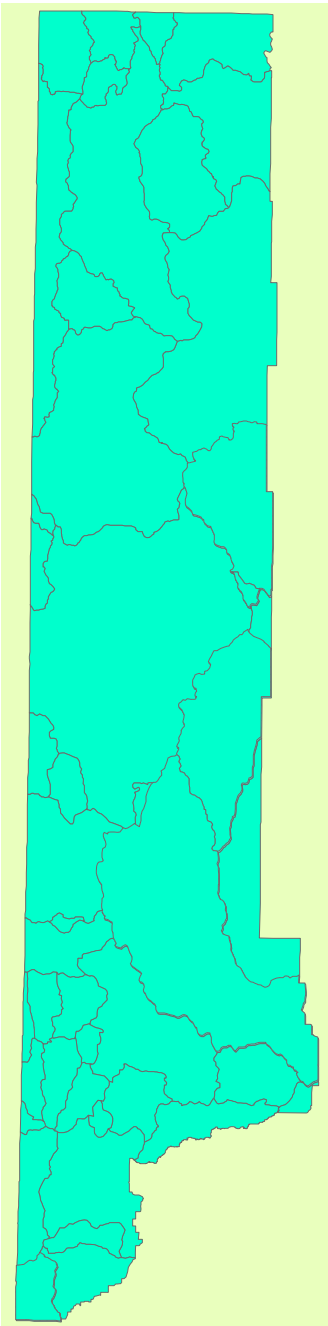

143,800 acre feet

- Truckee River System (TROA)
- Developed Groundwater Basins
- Including Fish Springs project

No additional water projects

Water Use Projection

2038 Consensus Forecast Population	2038 Water Use Projection
558,746	111,900 acre feet
