

Northern Nevada Water Planning Commission

STAFF REPORT

DATE: April 29, 2021
TO: Chairman and Members, Northern Nevada Water Planning Commission (“NNWPC”)
FROM: Chris Wessel Water Resources Program Manager
SUBJECT: Presentation, discussion, and possible action on the draft update to the “Storm Water and Watershed-Based Water Quality Planning” chapter for the 2021 RWMP update; discussion and possible direction to staff.

SUMMARY

The NNWPC, at their May 6, 2020 meeting, retained NCE Consulting through an interlocal with the City of Reno, to help update the “Storm Water and Watershed-Based Water Quality Planning” chapter as part of the 2021 RWMP update. The chapter outlines the activities associated with the storm water program and its management of the Environmental Protection Agency’s Municipal Storm Water Permit issued to the community. In addition, the chapter covers various other programs which coordinate with the Storm Water Permit Coordinating Committee and are supported by Western Regional Water Commission.

Theresa Jones, PE, City of Reno Associate Engineer and Storm Water Program Coordinator, will provide a report on the chapter update and expected timeframes for completion.

RECOMMENDATION

Staff recommends that the NNWPC accept the report on the consultant’s progress in revising Chapter 8 “Storm Water and Watershed-Based Water Quality Planning” of the 2016 RWMP, and provide direction to staff as appropriate concerning this chapter as part of the development of the 2021 RWMP update.
